

Projecting Signs: PF Series

Projecting Signs: *Flat*

A range of flat double-sided wall mountable projecting signs, typically used in the horizontal position. They are ideally suited for vinyl cut lettering & feature a rectangular extruded aluminum body with impact-modified plastic molded end caps, one of which doubles as a side mountable bracket.

Available in anodized Silver only, with Black end caps. Each system offers choices in length ranging from 5" up to 16" as well as custom lengths to meet your specifications.
